

The Eagle Condor Prophecy

The Eagle and the Condor is an ancient Amazon prophecy that speaks of human societies splitting into two paths – that of the Eagle, and that of the Condor. The path of the Condor is the path of heart, of intuition, and of the feminine. The path of the Eagle is the path of the mind, of the industrial, and of the masculine. The prophecy says that the 1490s would begin a 500 year period during which the Eagle people would become so powerful that they would virtually drive the Condor people out of existence. This can be seen in the conquering of the Americas and the killing and oppressing of the indigenous peoples in the subsequent 500 years – up to and including today. The prophecy says that during the next 500-year period, beginning in 1990, the potential would arise for the Eagle and the Condor to come together, to fly in the same sky, and to create a new level of consciousness for humanity. The prophecy only speaks of the potential, so it's up to us to activate this potential and ensure that a new consciousness is allowed to arise. (Source: www.pachamama.org)
